Available Integrations

Precise Marketing Lists, Advanced Search, Bulk Editing

Ascendix Search (included in our xRE Enterprise package) is an easy, but advanced searching tool that allows you to create marketing lists and do very precise list segmentation. xRE Foundations users can buy it separately.

Branded Brochures and Microsites

xRE Composer will help you generate branded brochures and microsites with data from your CRM. Property details, availabilities, pictures are sourced automatically. You get a professional looking leaflet in a few clicks. No need to update the data manually.
